Step-by-Step: Video Cloud Studio Publishing Workflow

In this topic you will work through a basic video publishing workflow using Video Cloud Studio. This topic provides a set of hands on steps you can work through on your own to discover some of the features of Video Cloud.

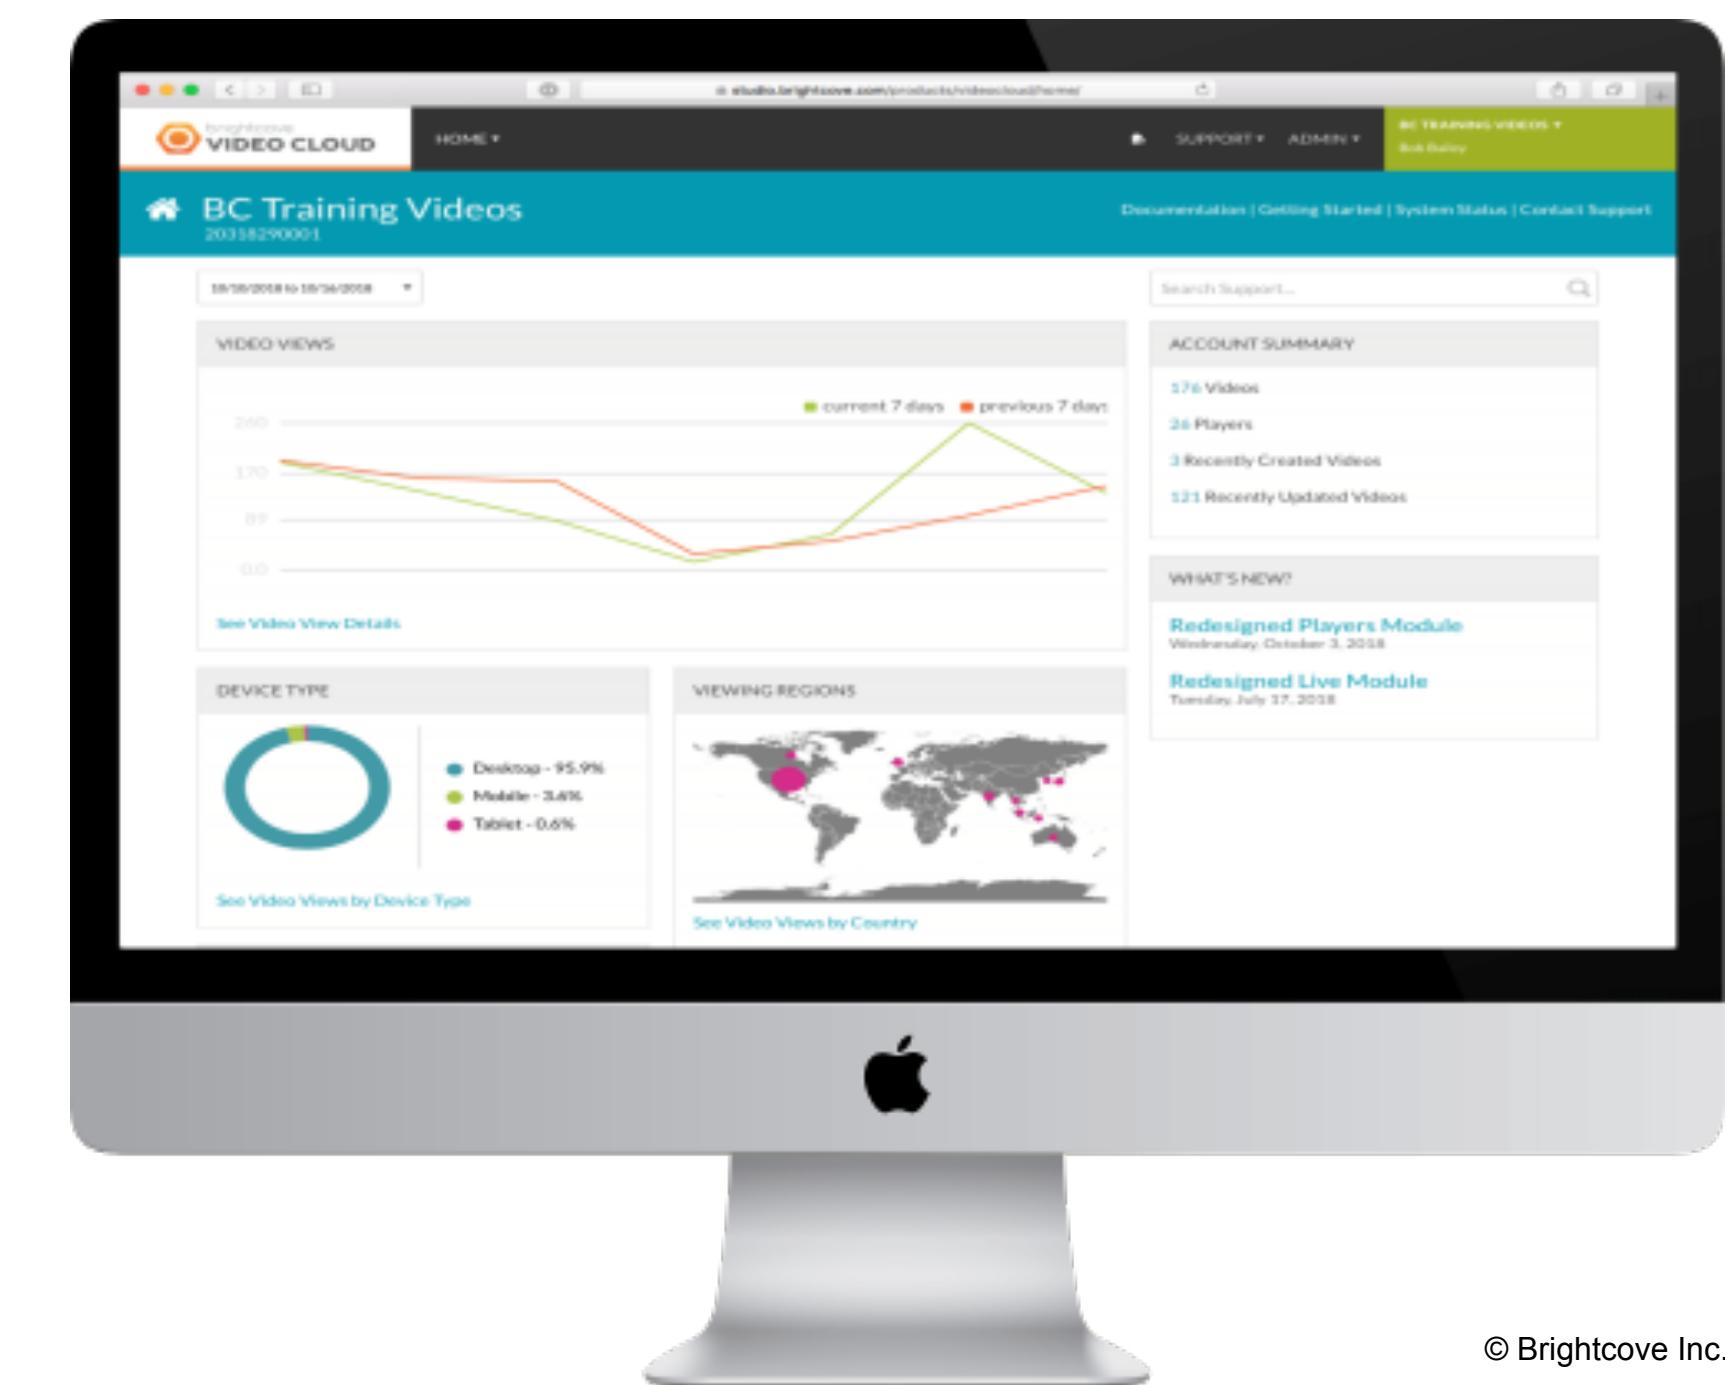

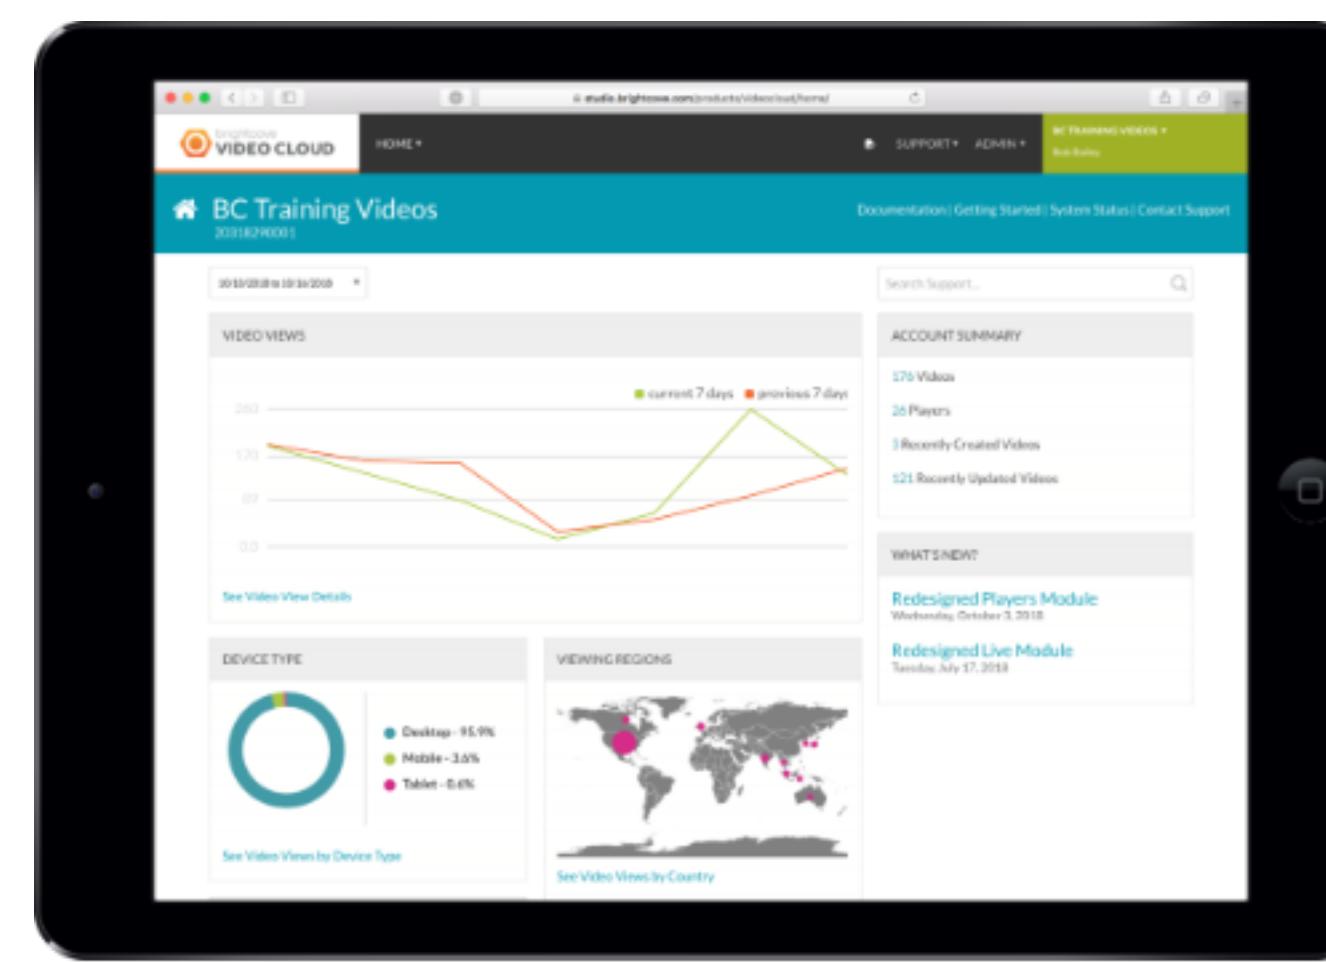

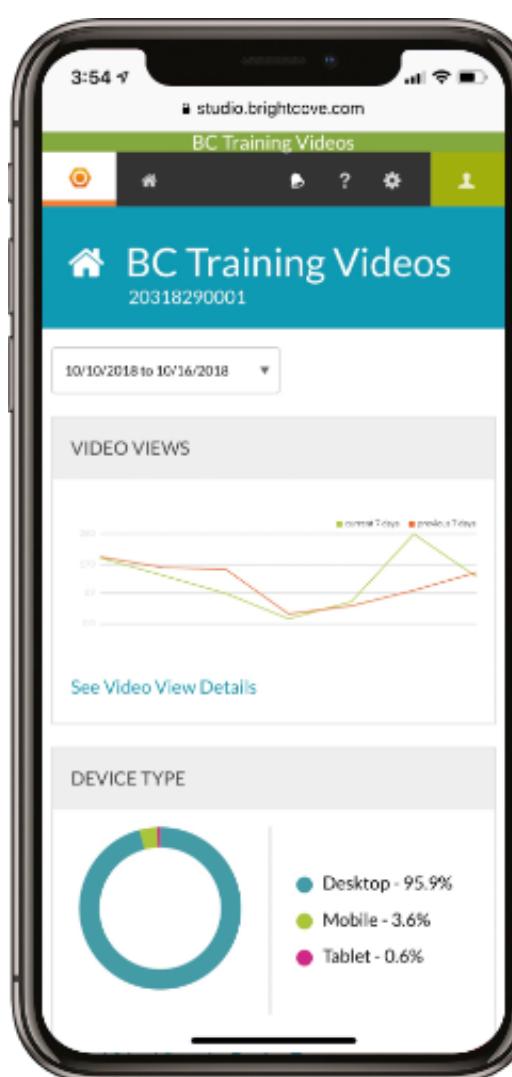

This topic is a companion to the [Introduction to Video Cloud on-demand training course](#). The hands-on exercises in that training are based upon the steps in this document. It is recommended to watch that training and then use this document so you can complete the hands-on steps on your own.

Prerequisites

- A Video Cloud account - you can sign up for a trial account [here](#).

Video Cloud Studio

- User interface for uploading, managing, and publishing videos
- Completely written in HTML5
